European Software Skills Alliance.

Become an Associated Partner

You can now join the [European Software Skills Alliance](#) (ESSA). We offer any organisation the possibility to become an **ESSA Associated Partner** and take part in our project's work strands. Our cooperation is based on the principles of common interest and complementarity.

You can decide to directly contribute to ESSA's activities, give some of your time and expertise to review what we deliver, or simply give us a helping hand to promote our activities. Below, you can see and compare the different contribution packages.

You can become an **ESSA Associated Partner** by expressing your interest, on behalf of your organisation, via the **online form** on [our website](#) and by agreeing with our Memorandum of Cooperation (MoC).

ESSA I Contribution Packages

| Compare Packages | Basic --- 1-20 hours/year | Advanced --- 20-50 hours/year | Champion --- From 50 hours/year |
|--|---|---|---|
| Base | <ul style="list-style-type: none"> > Feature the ESSA project on your organisation's website > Follow ESSA social media accounts and engage with their contents > Join periodical ESSA Meet-ups for Associated Partners > Send one contribution to the ESSA Software Skills Community | <ul style="list-style-type: none"> > Feature the ESSA project on your the organisation's website > Follow ESSA social media accounts and engage with their contents > Write one opinion piece for the ESSA blog > Share ESSA milestones and outputs via your organisation's channels > Join periodical ESSA Meet-ups for Associated Partners | <ul style="list-style-type: none"> > Feature the ESSA project on your the organisation's website > Follow ESSA social media accounts and engage with their contents > Write one opinion piece for the ESSA blog > Share ESSA milestones and outputs via your organisation's channels > Join periodical ESSA Meet-ups for Associated Partners > (Co)organise one event to promote the ESSA project > Send one contribution to the ESSA Software Skills Community |
| Work strand (one option to choose) | None | <ul style="list-style-type: none"> <input type="checkbox"/> Designing the European vocational education and training (VET) curricula for software professional skills and roles <input type="checkbox"/> Designing the accreditation and certification frameworks <input type="checkbox"/> Piloting and testing ESSA education and training programmes or material <input type="checkbox"/> Defining the framework of an EU mobility programme for software professional learning and recognition <input type="checkbox"/> Participating in the ESSA national and/or European expert group for the yearly revision of the ESSA Software Skills Strategy <input type="checkbox"/> (Co)organising one event to promote the ESSA project | <ul style="list-style-type: none"> <input type="checkbox"/> Designing the European vocational education and training (VET) curricula for software professional skills and roles <input type="checkbox"/> Designing the accreditation and certification frameworks <input type="checkbox"/> Piloting and testing ESSA education and training programmes or material <input type="checkbox"/> Defining the framework of an EU mobility programme for software professional learning and recognition <input type="checkbox"/> Participating in the ESSA national and/or European expert group for the yearly revision of the ESSA Software Skills Strategy <input type="checkbox"/> Collecting (national) data on software skills trends and gaps following ESSA's methodology |
