CONTRIBUTION PACKAGES

Your organisation can join the European Software Skills Alliance (ESSA) by filling in the online form on our website. Our cooperation is based on the principles of common interest and complementarity.

You can decide to directly contribute to ESSA's activities, give some of your time and expertise, or simply give us a helping hand to promote our activities. Below, you can see and compare the Associated Partners' contribution packages.

Basic Package 1-20 hours/year	Advanced Package 20-50 hours/year	Champion Package from 50 hours/year
BASE > Feature the ESSA project on your organisation's website > Follow ESSA on Social Media and share content > Join periodical ESSA Meet-ups for Associated Partners > Contribute to the ESSA Software Skills Community	> Feature the ESSA project on your organisation's website > Follow ESSA on Social Media and share content > Join periodical ESSA Meet-ups for Associated Partners > Contribute to the ESSA Software Skills Community > Write an opinion piece for the ESSA blog > Share ESSA milestones and outputs on your channels	> Feature the ESSA project on your organisation's website > Follow ESSA on Social Media and share content > Join periodical ESSA Meet-ups for Associated Partners > Contribute to the ESSA Software Skills Community > Write an opinion piece for the ESSA blog > Share ESSA milestones and outputs on your channels > (Co-)organise an event to promote the ESSA project
WORK STRANDS (one option to choose) ☐ None	☐ Design learning programmes for software profession skills and roles, based on ESSA curriculum description template and examples ☐ Pilot and test ESSA learning programmes or courses, including work-based elements when possible ☐ Support the definition and take part in the implementation of the EU mobility programme for software professional learning and recognition ☐ Participate in the ESSA national and/or EU expert group for the Software Skills Strategy's yearly revision ☐ (Co-)organise an event to promote the ESSA project	☐ Design learning programmes for software profession skills and roles, based on ESSA curriculum description template and examples ☐ Pilot and test ESSA learning programmes or courses, including work-based elements when possible ☐ Support the definition and take part in the implementation of the EU mobility programme for software professional learning and recognition ☐ Participate in the ESSA national and/or EU expert group for the Software Skills Strategy's yearly revision ☐ Participate in the discussion about possible implementation of ESSA badges/certifications ☐ Collect (national) data on software skills trends and gaps following ESSA's methodology
